

In preparation for hosting the 10 year old Cal Ripken World Series in August 2011, Winchester Baseball and Winchester Parks and Recreation, led by Brad Veach, have embarked on many park beautification projects. Hosting the World Series is a wonderful opportunity. It also is a time when all of our ball players and supporters should be honored, not just those 10 year olds participating.

Yost Field will be the primary field for World Series events. Behind Yost press box we will be building a *Walk of Honor* to commemorate all of our baseball/softball participants past and present. This flower bed will resemble a baseball, with the laces made from engraved bricks. (See attachment). Roger Repasky, a registered scout in Troop 45, will be coordinating efforts for his Eagle Scout Project. Roger has also participated in Winchester Baseball since age 4.

For a \$75 contribution we will engrave a brick as you request. Each additional brick is \$50. The engraving process is unique; creating a lasting, glass finish. The contribution will help offset the cost of the entire project. Please respond within the next 2 weeks, to be a part of this permanent tribute.

Engraving Requirements: 3 Line maximum. 18 characters per line, including spaces
